ed high tomorrow, 65.

Loggers Commence Strike

Howe Announces:

Ottawa Plans Ship Alberta Coal East

OTTAWA, May 15.—(CP)—Reconstruction Minister Howe said today in the Commons Canada's coal supply situation was "deteriorating rapidly." Replying to questions from opposition members, Mr. Howe also disclosed that the banning of coal heating in public buildings in Ontario and Quebec, announced yesterday, was only the first of a series of similar measures aimed at conserving supplies.

HE SAID CANADA had not received any coal shipment from the United States, where a crippling soft coal strike is in progress, for the last five weeks and may not receive any for another month. The situation now was that existing supplies were "not likely to last out."

Mr. Howe said the government planned to spread out supplies as long as possible.

JOHN BLACKMORE (SC-Leithbridge) asked whether the government would consider making use of the Alberta strip coal mines. Mr. Howe said arrangements had been made or were being made to ship coal from Alberta strip mines developed during the war.

Claimed New "Social Theory" Coal Operators Turn Down Fund

WASHINGTON, May 15.—(AP)—Soft coal operators today informed John L. Lewis they reject "unequivocally" his demand for a seven-per-cent payroll levy to finance a miners' welfare fund.

THE OPERATORS' negotiating committee said in replying to the United Mine Workers that Mr. Lewis' proposal presented "a new social theory and philosophy, the effect of which would extend to every industry in America, and as such must be considered and acted upon as a national problem and not as one relating to the coal industry alone."

The committee said the problem was one to be considered by public legislative bodies. As a counter-proposal to Mr. Lewis' proposition, the operators suggested the possibility of setting up a jointly-financed fund for hard-

At Winnipeg Wife Is Acquitted In Fatal Stabbing

WINNIPEG, May 15.—(CP)—The two-day trial of Mrs. Margaret E. Knight for the fatal stabbing of her husband, Henry Knight, in their Winnipeg home last March 31, ended yesterday with a quick acquittal for the "perfect mother."

THE 12-MAN JURY were out only 13 minutes to reach a verdict. In another 10 she had been declared innocent of the murder charge. Mr. Justice W. J. Donovan, of the Manitoba court of King's Bench, before whom the trial was held, said he realized Mrs. Knight had suffered considerably and he hoped she would be able to return home.

Testifying in her mother's defence, 15-year-old Lillian Knight said her mother was being worse during the last six years. Her father "was always drunk and when he was home he was always fighting."

Axe-Death Victim Found in Quebec

MONTREAL, May 15.—(CP)—The body of Anselme Lafontaine, 40, slain by axe blows over the head, was found by provincial police early today in his home at St. Genevieve, Que., about 20 miles west of this city. Police said they were defining a man as an important witness in the slaying.

Find Man Dead
Bruce Nicholls, farmer residing in the Wainwright district, was found dead at his home about 3:45 p.m. Tuesday. He was 60 years old and had been working on the farm. He was found by the RCMP. Coroner Dr. H. C. Wallace of Wainwright has decided that no inquest will be necessary.

New flag designs narrowed down. Page 3.

U. OF A. HONORS STUDENTS: Shown above are some of the outstanding students in the 1946 graduating class at the University of Alberta. Mr. Christiansen won the Governor-General's gold medal; Mr. Bentley, the T. Eaton Company's Gold Medal in Commerce; Mr. Astle, Hudson's Bay Company Gold Medal; Institute of Chartered Accountants prize; Miss Riskin, the Prevey Gold Medal in Home Economics; Tynen Hoffman, Alberta Locals of the Agricultural Institute of Canada Gold Medal; Mr. Mathers, the Henry Birks and Sons Gold Medal in the Faculty of Applied Science; Miss Peirce, the Faculty of Education Alumni Gold Medal; Mr. Moir, the Chief Justice's Gold Medal in Law, the National Trust prize in Law, the Sidney Woods prize in Constitutional Law; Miss Sproston, the President's Gold Medal in Nursing; Mr. Groves, the Alberta Pharmaceutical Association Gold Medal in Pharmacy, degree course; Miss Nettleton, a similar Gold Medal in the licentiate course; Miss Davis, the Rutherford Memorial Gold Medal in English.

Seeding of Crops Nearly Completed

Seeding in the district surrounding Edmonton is 75 per cent completed, according to the first crop report for the season issued by the department of agriculture Wednesday.

An eight per cent increase in wheat acreage is anticipated this year, but coarse grains acreage will be slightly decreased. More interest than usual is being displayed in the growing of legumes and grasses.

Cattle are reported to have wintered fairly well, although feed in some areas was short.

THE PICTURE for the whole province is much the same as that for the Edmonton district, although soil drifting in the south has caused some havoc and the high winds of the past few weeks have resulted in the loss of valuable reserve moisture.

The over-all average of livestock population is down in the province, the report said, and pastures, particularly in Southern Alberta, are suffering from lack of moisture.

Hog and cattle marketings are lighter than they were a year ago.

Heating Schools Despite New Rule

TORONTO, May 15.—(CP)—There is heat today in Toronto schools—provided by soft coal—in spite of an order of reconstruction minister Howe in Ottawa last night forbidding use of soft coal in heating schools and public office buildings.

W. R. Cockburn, the chairman of the board of education, said he has taken it on himself to authorize officials to keep temperatures in schoolrooms at 65 to 68 degrees and that the matter may be discussed at a board meeting Thursday.

37,000 Workers In Huge Walkout

VICTORIA, May 15.—(CP)—Some 37,000 British Columbia logging and sawmill workers went on strike at 11 a.m. today in protest against failure to obtain a satisfactory working agreement.

THE STRIKE WAS CALLED by the International Woodworkers of America (CIO-CIO). It is estimated that within a week or 10 days 80,000 workers, or about one-third of the province's 250,000 employees, will be off their jobs as a result of the walkout.

Last minute efforts to avert a shutdown of the industry, the province's largest, failed when representatives of the union and of lumber operators conferred with Chief Justice Gordon Sloan of the British Columbia Supreme Court.

"I was unable to find a common ground to bring them together," said the chief justice at conclusion of the sessions.

The chief justice was not prepared to say what recommendations he would make to the minister of labor.

R. V. STUART, who has represented operators in all negotiations for a new agreement issued a pre-

In McDougall Church Auditorium Colorful Ceremonies At 36th Convocation

Long years of concentrated work and close study ended Wednesday afternoon when graduating students of the University of Alberta were admitted to their degrees in the university's 36th annual convocation at McDougall Church auditorium.

TOTAL OF 544 degrees were conferred on 490 students, some of whom received more than one degree. They were presented with their diplomas as they advanced to the stage in full view of proud relatives and friends and of interested graduates of past years and other universities.

Missing at Wednesday afternoon's ceremonies were the military uniforms, presence of which had marked convocations of the last four or more years. Instead there were the black gowns and hoods of members of the faculty and members of the bench and bar, the dark attire of the clergy, the

In Commons Citizenship Bill Debate Is Ended

OTTAWA, May 15.—(CP)—The Canadian citizenship bill, aimed at creating greater national unity through a common interest in common citizenship, yesterday was approved by the commons, ending a lengthy debate on the principles, ideals and rights of citizenship.

Formal third and final reading of the measure, which emerged from clause-by-clause study in committee stage covering more than a dozen amendments, was deferred until the next sitting of the house. In all, six amendments were made.

THE BILL, sponsored by State Secretary Martin, will have these effects once it is proclaimed:

1. Establish and recognize Canadian citizenship. Formerly, the only definition of citizenship was found in the immigration act. In

Tax Payments Hit \$367,641.82

First installment of tax payments to May 14 totalled \$367,641.82, compared with \$301,838.67 for the same period last year, an increase of \$35,803.15, according to figures released Wednesday.

THE DEADLINE for first installment payments is May 16, after which the unpaid instalment is subject to a penalty equal to one per cent of the unpaid amount and will be added for each month, part or month, that the instalment remains unpaid.

Collections this year are well ahead of the record achieved last year, and assessor's office officials are confident a new first instalment collection will be made this year.

Three Persons Die In Montreal Blaze

MONTREAL, May 15.—(CP)—Mrs. Henry Costello, 30, and two of her young children were dead last night as a result of a fire which endangered a whole row of houses on downtown Doherty avenue.

Mrs. Costello died in hospital several hours after the fire, while Henry, six, and Margaret Rose, 3½, succumbed in the burning building.

Shooting Victim Is Dead in East

PENBROKE, Ont., May 15.—(CP)—Pansy (Pat) Spinks, 21-year-old Walham, Que., girl who has been unconscious in hospital since she was shot in the chest by a hunter on May 1 with a bullet wound in her forehead, died early today.

New U.S. Program To Save on Wheat

WASHINGTON May 15.—(AP)—The United States government announced yesterday a wheat program that will mean continued skimping on bread, meat, beer and whisky for the next 13½ months to help feed hungry people abroad.

Furthermore, the bread will continue to be "dark" and it may come in smaller loaves.

PREVIOUSLY the government had hoped to lift the restrictions on wheat, flour and corn, this summer after the 1946 wheat crop is harvested. Yesterday's announcement means the curbs will not be abolished before the summer of 1947, unless there is another change in the situation.

Agriculture Secretary Anderson said that at the moment it "is regarded as necessary to ensure the most effective distribution and use of the 1946 crop, in meeting both domestic and foreign needs."

The way it sizes up, the program will provide considerably less wheat for food for the American dinner table during the 12 months beginning July 1, 1946, as compared with the year that began July 1, 1945. It will provide about half as much wheat for feeding to livestock, that means less meat—and none at all for brewing and distilling.

House Committee Plans Probe Radio

OTTAWA, May 15.—(CP)—The Commons yesterday passed a resolution naming 25 members to a special committee to consider policies and the annual report of the Canadian Broadcasting Corporation.

THE RESOLUTION went through after an unsuccessful effort by opposition members to launch a general discussion of CBC affairs.

A second resolution dealt only with the membership of the committee and other matters could not be discussed.

Revenue Minister McCann, replying to questions from the opposition (CPC-Peel) said that power of the CBC radio wave transmitter at Saskatoon was being used to be heard in Russia, but the corporation had no Russian service because it lacked artists who could use the Russian language.

Mr. McCann told Arthur Smith (CPC—Calgary West) that the matter of the CBC radio stations was one of government policy and any announcement in this connection would be made at an appropriate time.

Rev. E. G. Hansell (CPC—Maclean) rose to say he was getting "tired" of ministers withholding information on the grounds of policy and he said if Mr. Smith would come to him he would tell him what he wanted to know.

Spy Trial

(Continued from Page 1)

busy" and needed another 10 days to complete his work."

MAZURALL, a charge of conspiring to give information to Russia. Actually, he is alleged to have given Luman two documents on radar but the crown has admitted they were made public very shortly after.

It is the crown's contention the agreement to give, not the giving itself, is the vital factor in conspiracy.

Mr. Cartwright renewed an appeal to have a verdict connected with Prof. Israel Halperin, who Queen's University treated in camera because it related to the matter of the United States government, still considered secret. The chief justice directed that the jury be read the jury, that it be placed on record for them but urged no publicity to be given.

HALPERIN IS ONE of those with whom Mazurall is alleged to have conspired.

The instruction to Luman suggested he get various information on army dispositions, strength and plans.

Igor Gouzenko, former cipher clerk at the Russian embassy, was recalled to the witness stand. He identified a picture of Lt. Col. Rogov, former military attaché at the embassy, who was known as "Jan" or "Brent" in the network.

He identified, too, a few pages from a notebook in which Rogov had given a breakdown of personnel and sections of the research council. Some of them were dubbed "CCP" and one "reactionary—anti-Soviet."

NEXT came another file Gouzenko had taken when he left the embassy Sept. 5, 1945. He said it was the file on Durnford Smith, another council engineer who is named on the same indictment with Mazurall. Gouzenko identified several sheets as things he had taken from Rogov's brief-case.

One was allegedly a report on Prof. Halperin by a Russian embassy man named "Gouzenko." It reported Halperin would give only oral information, that he described the general principles of an electronic ezel which caused the accuracy of rocket bombs and that he had said he knew nothing about the "chalk River, Ont." atomic bomb project.

Doukhobor Store Is Burned In B.C.

NELSON, B.C., May 15.—(CP)—Another Doukhobor community store, burned to the ground at Goose Creek, near Kesteven, yesterday, in what police believe to be connected with the wave of suspected Doukhobor incendiarism which began in 1945.

The building was completely destroyed, police were unable to estimate the value of losses as the store had been built by Doukhobor labor and there was no record of what stock had been on hand. No insurance was carried.

Senate Ponders Taxation Changes

OTTAWA, May 15.—(CP)—The senate income tax committee yesterday completed the collection of the evidence on income tax legislation and now turns to the preparation of its report.

EXPECTATIONS ARE that the committee will propose a complete overhauling of the income tax legislation with new procedures for handling appeals.

The committee, under the chairmanship of Senator W. L. Auld (Ontario), started its study last year. The inquiry was directed at administration rather than policy and has been the subject of much Main objections from various organizations have concerned the present appeal procedure, the complicated form of the legislation, wide discretionary powers held by the revenue minister, delays in completing assessments, the policy of charging interest on returns found on final assessment to be not paying interest on money overpaid.

FRASER ELLIOTT, deputy minister for income tax, a witness before the committee, agreed that a simple and informal appeal procedure was needed but opposed removing the discretionary power held by the minister and suggested that the minister overrule the decision of the proposed appeal boards further appeal be allowed through the present plan. At present an appeal against the minister's decision may be made to the exchequer court and from there to the supreme court of Canada and the privy council.

Minister Withdraws Faulty Legislation

OTTAWA, May 15.—(CP)—Labor Minister Mitchell agreed to withdraw the bill to amend the Income Tax Act last night to withdraw and send to the Veterans' Affairs committee for study.

The bill, which was described as "contradictory, illogical, unclear, ridiculous, and incoherent," was an example of "lazy-man's legislation."

The bill was aimed at incorporating into the Income Tax Act provisions of the legal profession on a bill drafted by one of their own profession. The relationship between the bill and the act, simply added the amending provisions as a whole to the act. This would lead to confusion because some of the most important rights of the act were contained in the orders and not in the act.

IN AGREEING to withdraw the bill, Mr. Mitchell said that he—a layman—had been given a going over by members of the legal profession on a bill drafted by one of their own profession. The relationship between the bill and the act, simply added the amending provisions as a whole to the act. This would lead to confusion because some of the most important rights of the act were contained in the orders and not in the act.

THERE OUGHTA BE A LAW

BEFORE LAST NIGHT'S OPENING BOULEVARDS WERE TOSSED ROUND BY THE ACTORS IN THE PAINT AND CRITIC RENOWNED—

Chinese Reds Cut Vital Railway Line

MUKDEN, May 15.—(AP)—A force of 10,000 to 20,000 communist troops was reported today to have cut the vital railway line between Manchuria and the Great Wall northeast of Shanghai.

The report came as semi-official Russian sources disclosed that Soviet troops have completely withdrawn from Manchuria, except for the Nationalist forces in Manchuria—at two points outside the Great Wall northeast of Shanghai.

Weather

The cool polar air mass still covers the prairies but light southerly winds will bring higher temperatures to Manitoba and Saskatchewan. A weak low pressure area over northern Alberta will bring rain at noon Thursday. This low will give locally cloudy skies for the adjournment of the council.

PEACE RIVER REGION Variable sky during the day otherwise clear at night. Northwest winds 15 mph today becoming west 15 mph Thursday. Low tonight at Peace River 40, high Thursday 68.

EDMONTON AND RED DEER Cloudy today and Thursday and warmer. Northwest winds 15 mph becoming light winds Thursday. Low tonight at Edmonton and Red Deer 35, high Thursday 65.

LYNDEN BEING AREA Cloudy with heavy rain showers this afternoon becoming clear Thursday night. Northwest winds 15 mph shifting to west winds 20 mph this afternoon. Low tonight at Vermilion 35 high Thursday 60.

Freight Rates (Continued from Page 1)

operate efficiently and accumulate large surpluses under the present freight rate structure, he contended. "The problem then is one of increasing the volume of traffic to be carried by the railways."

Mr. Fallow went on to point out that the productive capacity of the Dominion is sufficient to ensure this volume of traffic and that commercial, industrial and social needs of the people further emphasize the necessity for a continuation of a heavy volume of freight traffic.

"THIS BEING THE CASE," he said, "the problem is one of volume of traffic and is therefore an economic problem which can be adjusted by the senior government only."

THE FEDERAL government must attack the maladjustment in our economic structure at its root cause, Mr. Fallow continued. "Any shuffling of the freight rate structure will come no nearer a permanent solution than the shuffling of the tax structure as between province and Dominion, in which we failed to come to an agreement at the recent Dominion-provincial conference."

Western provinces will be united in their battle against the present freight rates, since the present rates as they affect these provinces are "grossly inequitable and wholly indefensible," he stated.

"IT IS INCONCEIVABLE that the board of transport commissioners, in their capacity as a regulatory application on the part of the railway companies to still further burden the rate payer," Mr. Fallow concluded.

Loggin' Strike (Continued from Page 1)

paraded statement shortly after the strike began. The statement said: "The operators are in session this morning and we understand that Chief Justice Sloan has recommended to the minister of labor that the operators be permitted to proceed under P.C. 1003. An application for such concession is being made to the minister. We are awaiting further developments."

To Continue Eliminations

Design for Canadian Flag
Narrowed to Dozen Choices

By JACK BRAYLEY

OTTAWA, May 15.—(CP)—With selections cut to 12 designs, the parliamentary flag committee yesterday spent an hour-and-a-half wrangling over procedure before deciding to continue by ballot the process of elimination.

VISITING CITY—Fred B. Seibert, Winnipeg industrial commissioner for Canadian National Railways western lines, who was a business visitor to Edmonton Wednesday. He is a guest at the Macdonald hotel.

Convocation

(Continued from Page 1)

gowned students and the crisply-white uniformed nurse graduates.

THE SERVICE was opened with the academic procession as members of the faculty, guests of honor and students marched from their congregating point outside the church, through the portal and down the aisles to their places at the front of the auditorium.

The Bishop of Edmonton, the Right Rev. W. F. Barfoot presided at the invocation after singing of O' Canada. Prof. L. H. Nichols presided at the organ. Dr. Robert Newton, president of the university then delivered his report, while Mr. Justice Frank Ford, as university chancellor, gave the convocation address.

PLEDGES were administered by Dr. Newton.

Candidates for the various degrees were presented by the deans of all the university faculties, after which Mr. Justice Ford consented to admit them to their degrees. As the graduates were presented, they knelt before the chancellor and received their diplomas. This was the highlight of the ceremony, the never-to-be-forgotten climax of the university career.

Two honorary degrees of doctor of laws were conferred, one on Mr. Justice Frank Ford, of the Alberta supreme court, who is retiring from the university chancellorship on the automatic expiration of his term and Dr. G. Fred McNally, former deputy minister of education who retired on superannuation last month.

Mr. Justice Ford was presented for his degree by Mr. Justice H. H. Parlee, chairman of the board of governors of the university. Dr. McNally was presented by Dr. M. E. Lazerte, dean of the school of education.

The recessional concluded the convocation ceremony.

Record total registration of 4,811 students, compared with last year's enrollment of 2,651 was a result of two out of every three extra students taken in by the university this year being war veterans, according to the report given by Dr. Robert Newton, president of the university.

THERE WAS AN increase of 441 students in the 1945 summer session and a jump of 1,380 in the regular winter session. There were 1,461 student veterans enrolled during the year. If living accommodation can be found, Dr. Newton said there is every reason to expect at least that many more next year. The increase this year, he reported, included 721 civilian students. "We turned away 150 qualified civilians last fall, asking them to wait a year in favor of the veterans... if these deferred civilians come forward again this fall... we shall face a period of intensified overcrowding," the president warned.

The Faculty of Education was now second only to the Faculty of Arts and Science in the size of its student body. Dr. Newton revealed. Another point of interest with regard to the Faculty of Education was that 155 of its students this year were located at the Calgary branch.

Dealing with the prospect of adequate student housing next session, Dr. Newton said a committee representing the location office of the Department of Veterans Affairs, the Provincial Department of Economic Affairs and the University, had kept the problem under constant study for some months. A careful survey

Jack Carson, the versatile Canadian actor-comedian, with his mischievous nephew Tugwell and Arthur Treacher are away Wednesday at 9 p.m. over CFRN.

AT THE OPENING of the session the 36 members of the committee who voted on 78 designs of an original total of 2,500 found their vote had centred on a dozen designs which were on display.

The members will cast another ballot in favor of their choice among the 12 remaining designs in an effort to whittle the number still further. The result of this vote will be announced after the committee meets Wednesday.

Designs now before the committee, names of their authors and the votes they received include:

1. A red ensign with a golden maple leaf in the fly in place of the traditional coat of arms; designed by Donald Baird of Truro, N.S.; five votes.

2. A flag composed of red and white triangles bearing a green maple leaf in the centre of the diagonal line separating the two colors; designed by La Ligue du Drapeau National of Quebec; five votes.

3. A white ensign with a red maple leaf in a red circle in the fly bearing four diagonal blue stripes; designed by J. W. Leroy Holman of Summerside, P.E.I.; four votes.

4. A white ensign with a green maple leaf in the fly; submitted to a Montreal La Presse competition and adjudged the best entry by Hugh Savage of Duncan, B.C.; three votes.

5. A flag with a silver and red crown on a blue square in the masthead corner and three red maple leaves on a white field in the fly; designed by Col. A. Duguid, army heraldry expert; two votes.

SEVEN OTHER DESIGNS received one vote each.

Rene Baudoin (L-Vaudreuil Soulanges) moved a three-point program for the committee to follow. The dozen remaining flags to be analyzed by experts who would report back to the committee, the experts would appear before the committee to give evidence; arrangements would be made to have the 12 flags made up in standard size and flown from a masthead so committee members could get the full effect of the respective designs.

This motion was not voted on but an amendment, a compromise of motions by Senator J. P. Howden (L-Manitoba) and Maurice Gingues (L-Sherbrooke) was carried. It provided for continuance of the process of elimination.

Arthur Smith (PC-Calgary West) said he wanted to see a national flag which was acceptable to all Canadians and he cautioned against haste and said he would like to see members go back to their party caucuses with broadened views.

by this committee showed that some 2,400 additional veterans, of whom about 800 were married, desire to enter the university next fall, and that there was almost no living accommodation available for them.

"IT NOW APPEARS that the Dominion Government is not prepared to finance any accommodation for single men, and not more than 100 suites for married men. The present outlook for many would-be student veterans is therefore rather gloomy," the president declared.

He added that "we would not be justified in impeding the successful discharge of our first duty by diverting our energies to a large-scale temporary housing project for the organization of which we have neither the funds or the machinery." The University's organization was likely to be stretched to the breaking point to provide the necessary classroom, accommodation, equipment, and staff, he said.

Since VE Day the university had appointed over 100 additional instructors in various ranks, about 60 of these on a full-time basis and the remainder part-time. As every other university was doing the same sort of thing, it was not difficult to realize that keen competition for qualified personnel had developed. One of the determining factors in getting new staff members was now the possibility of finding living accommodation for them. This University, like some others, had been obliged to plan a temporary housing scheme for staff as the only way of securing the fulfilment of its teaching function, Dr. Newton explained.

The president pointed out that the sudden expansion in the size of the student body had posed serious questions of finance. The University Survey Committee four years ago came to the conclusion that it costs annually about \$250 per full-session student, over and above the fees paid by the student, to run the university satisfactorily. That estimate was based on the pre-war number of students. The per capita cost went up during the war as the student population diminished. It had gone down this year when the university's numbers went up.

"During the past year our financial situation was eased by a Dominion subsidy of \$150 for each student veteran," he said. "Similar help on a slightly modified basis is expected during the coming year, and may be continued throughout the four or five years of the rehabilitation period, naturally diminishing from year to year as student veterans graduate or exhaust their period of entitlement to Dominion benefits. After that we must meet from provincial sources the full cost of higher education."

Since the university may have over 4,000 full-session students next year, it was thought that not far short of a million dollars for current expenses over and above the revenue from student fees, would be required, Dr. Newton said. To this must be added substantial annual expenditures over a period of years for a building program.

PRIMROSES EXAMINED: Judging of primroses, made by students in Edmonton city schools, was carried out Tuesday afternoon in preparation for the annual Red Cross primrose day next Saturday. Taking part were Robert Muir, secretary manager of the Edmonton Red Cross society, on the extreme right, and, left to right, Mrs. Frank Dynes, Mrs. S. Israel, Mrs. J. C. Bowen, Mrs. W. W. Addie and Mrs. H. L. Weir. The paper flowers were displayed for the judges in the Red Cross baby clinic.

Hits Grandmother

With Nail Hammer

MONTREAL, May 15.—(CP)—

A police search was conducted last

night for an 18-year-old youth who allegedly attacked his grandmother with a hammer and then made his escape. Mrs. Joseph A. Germain, 72-year-old widow, lay in critical condition with severe head injuries.

She said her grandson, Claude Jolli, visited her at her north-end St. Valier street home and without provocation hit her three times on the head with a hammer, leaving her semi-conscious on the floor.

Court Hears Story of Hold-Up

"Highjacked" Taxi to Go Home

Story of how a 19-year-old boy, who was hungry, out of money, and with no place to stay in the city, had a taxicab driver take him to St. Albert, then calmly forced the driver out of the car and stole the vehicle to go home, was unfolded in city court Wednesday morning when Gabriel John Boudreau pleaded guilty to a charge of robbery with violence. He was remanded until May 17 for sentence.

THE YOUTH WAS ARRESTED by RCMP at his home near Spruce Grove Tuesday afternoon, just 13 hours after Jerry Halsky, 10184 88 street, walked into RCMP detachment headquarters at St. Albert and told officers that his taxicab had been stolen. The vehicle was recovered near Spruce Grove at noon Tuesday.

Halsky told police that a young man had come to the Edmonton office of the taxi firm with whom he was employed and asked to be taken to St. Albert. On arrival there, the driver was instructed to proceed one mile north of the town, where the passenger had the car stop, forced the driver to get out with what appeared to be a gun.

THE PASSENGER THEN DROVE off in the car, passed through Edmonton, and proceeded along the Stony Plain road for a short distance before turning off for Spruce Grove. Court was told that the supposed gun used by Boudreau to "highjack" the car was a knife.

Prejudice Charge
Laid to Minister

By Barrett, Canadian director of the United Mine Workers of America, charged yesterday in an open letter to Labor Minister Mitchell that the minister is "prejudiced" towards organized labor and that the government had no adequate staff to deal with labor disputes.

Azerbaijan Ruler
In Defiant Mood

TEHRAN, May 15.—(UPI)—The Tabriz radio today broadcast defiant statements that Azerbaijan would fight to defend its liberty against the Soviet Union, premier of the autonomous regime, said the Azerbaijan people "have liberated themselves from despotism." Central government troops from Tehran

began moving northward toward the Azerbaijan frontier some days ago, taking over territory evacuated by the Russians. Fears have been widely expressed that civil war may develop following the breakdown of negotiations between Azerbaijan and Premier Ahmed Ghasem, but no clashes have yet been reported.

CUT DOWN ON
TAKING LAXATIVES
THIS WAY

See How Regular You Can Be Every Morning

Try taking Carter's Pills this way: Start with 3 and get a definite time for your morning. When you get regular every morning cut down to 2. After a few days, try 1. Then try taking Carter's pills every other day. You may even find you can keep regular without any laxative. You see, Carter's are so tiny you can cut down the dose—from 3 to 1—to fit the needs of your individual system. Without disappointment. Carter's effect because made with two vegetable herbs compounded properly for the stomach, easy on the bowels. Thousands can get down on laxative without getting Carter's. Ask for Carter's Pills by name to get the genuine at any drugstore—25¢. Start the Carter's habit by name to get the genuine at any drugstore—25¢. Start the Carter's habit by name to get the genuine at any drugstore—25¢. Start the Carter's habit by name to get the genuine at any drugstore—25¢.

The new 1946 Chevrolet is the best Chevrolet ever built, with brilliant new styling, beautifully fashioned Body by Fisher and all the proved quality and dependability which have caused Canada to put Chevrolet first in sales, in so many pre-war years. Outstanding appearance features include: new Beauty-Leader Styling; new Wide-Wing radiator grille; new hood ornamentation; new color harmonies; distinctive new instrument panel; and massive new "Car-Saver" bumpers both front and rear.

The same sterling quality — the same deep, through-and-through goodness which has won your preference in the past — also characterizes every detail of Chevrolet engineering. Notable features include: Chevrolet's proved Valve-in-Head Thrift-Master Engine for performance with economy; the famous Uniflex Knee-Action Ride for comfort; Extra-Easy Vacuum-Power Shift and Shockproof Steering for driving ease; and Positive-Action Hydraulic Brakes for smooth, safe, positive stops.

For years, Chevrolet has been the most economical of all largest-selling low-priced cars, from the all-round standpoint of gas, oil, tires and upkeep; and the new Chevrolet for 1946 is designed and built to maintain this reputation for highest quality at low cost. We cordially invite you to see this beautiful new motor car, with full confidence that when you have weighed all its advantages of beauty, performance and value, you, too, will decide to Choose the Leader — Chevrolet!

The Bulletin's SPORTS SHOW by Hal Dean

0. L. (OLLIE) MACDONALD moved right in with that very select group of city golfers who have recorded aces, when he canned the ball with one stroke at the Edmonton Golf and Country Club on Tuesday evening.

"Ollie" was playing on the fourth hole (120 yards) with Bill Simpson, Bill White and Marvin Downer when the hole-in-one put in its surprise appearance. He used a number 10 iron and spanked the ball to about 20 feet in front of the pin and it kept on rolling until it dropped into the cup.

This is the second ace registered at the Country Club this season. Cal Keys coming up with one a couple of weeks ago.

A COPY of the records for NHL's 1945-46 season has just arrived, with the complete of the National Hockey League, and also included are statistics for both American and United States Leagues.

Amongst other items of interest, it came as a surprise that Chicago Black Hawks headed the list for penalties, with a total of 339 minutes. Canadiens were next with 337. Toronto Leafs served only 247, the lowest on the list, Boston being next with 273. Rangers total was 285 and Detroit's 298.

The four top scorers in the NHL (Max Bentley, Guy Stewart, Toe Blake and Clint Smith) evidently were too busy collecting points to spend much time in the penalty box, the whole quartet being off for only 18 minutes. Maurice Richard (in scoring), however, boomed in with 50.

TOE BLAKE of the Canadiens and Clint Smith of Chicago, were off for just two minutes each, while

Lesnevich Kayoes Mills

Britain's 1st Post-War Bid For Boxing Honors Spoiled

LONDON, May 15.—(CP)—Britain's first post-war bid for major boxing honors ended in defeat last night when Gus Lesnevich, world light heavyweight champion from Cliffside, N.J., scored a 10th-round technical knockout over Freddie Mills, British challenger, before a record crowd of 11,000 at Harringay Arena.

Lesnevich exploded in the 10th session of the 15-round bout, after Mills twice came for a count of nine. Mills got up and tried to carry on but was flattened again. The referee stopped the fight without a count and raised the American's hand.

Mills, known as the Bournemouth Bomber, a British cruiserweight (light heavyweight) champion, weighed in at 173 pounds, 14 ounces, while Lesnevich came in at the 175-pound mark.

MILLS, LIGHTLY regarded in the pre-fight betting, made a much better showing than was expected. The former RAF sergeant went down three times for a count of nine in the second round but came back swinging to close Lesnevich's left eye in later rounds.

It was a slam-bang, punishing contest and the 10th round opened with Mills still carrying the battle to his opponent. Lesnevich, noted for his boxing skill, showed plenty of footwork and worked around Mills carefully until the British titleholder's guard dropped. Near the end of the round Lesnevich threw a left jab that jolted Mills. Then came a left and a right which felled the Briton for a nine-count.

MILLS STAGGERED to his feet gamely but obviously was a sitting pigeon for Lesnevich and was felled by a hard right.

The pro-Mills crowd cheered wildly from the fourth round on as Mills staged his comeback. It had paid up to £20 (\$80) a seat to see the battle. First major bout between a Briton and an American since Tommy Farr, the Welsh coalminer, met Joe Louis in New York in 1937 for the world heavyweight crown.

It was a tribute to Mills' condition that he came back after his early lurching. Just out of the RAF and without a fight in 15 months, the tough Briton forced Lesnevich from the fourth until the 10th round.

Mills' best round was the ninth when he shook Lesnevich up with powerful rights to the body and lefts to the face. Lesnevich's counter-punches seemed to have no effect on Mills.

Eskimos, Cubs and Cardinals Three Teams in City Baseball Loop

54-Game Senior Schedule Opens May 22

First Game Won By Lloydminster

Exclusive to The Edmonton Bulletin

LLOYDMINSTER, May 15.—The Lloydminster baseball team won the opening game of the newly-formed Eastern Alberta Baseball League's 1966 season by trimming the visiting Kitscoty nine 7-2 at the exhibition ground diamond here last Sunday.

McGladdery, Kitscoty's one-armed hurler, rated himself along side of Pete Gray, American baseball's "one-armed wonder" as he held the visiting team to nine hits and struck out 10 of the 33 batters that faced him.

The other clubs entered in the four team league are Vermilion and Marwayne.

BRONX TEA PARTY: Butler William Fretwell pours as his Lordship Tami Mauriello entertains in his corner with tiffin at Gleason's On-the-Hub, Bronx-On-the-Harlem, where homegrown is preparing for 10-round match with Bruce Woodcock, British, heavy-weight champion, at Madison Square Garden, May 17. Telling his charge that he is quite the gentleman is manager Sir Lefty Remini.

Hanch, Walker Homer

Legionnaires Swamp Moose For Second Straight Victory

Blake Barker's Central-Legionnaires uncovered a 13 hitting attack, topped off by a pair of home runs over the right field fence by Ralph Hanch and Greg Walker, at Kingsway Park Tuesday night to over-power Moose 14-2 and mark up their second straight win in the City Senior Men's Fastball League.

Hanch pounded the ball out of the park in the first inning when Legionnaires piled up a 4-0 lead and then Walker kicked in with his four sacker in the seventh while the winners were still building up their big score. Walker also banged out two other safeties while El Long and Nin Gray both collected two hits in the eighth.

IN ADDITION to the two homers, the Legion squad collected a total of six extra base hits off the two Moose chucks, Bill Kitt and Wilbur Orr.

Tony Durovitz went the distance on the mound for the victors and while the losers were still trying desperately to cut the wide margin.

LEGION TOOK a 4-0 lead in the first inning and added to it in almost every other count. They scored two in the second, when Moose got their first and then made it 4-1 in the third. The winners were retired without doing any damage in the fourth and fifth.

In the sixth, three in the seventh on Walker's round tripper and one in the eighth and ninth innings.

TONIGHT'S GAME, 6:45 p.m. Motion's vs. Walk-Rites.

Busher Is Back In Training Again

LOS ANGELES, May 15.—(AP)—Busher, believed through with racing after she fractured a cannon bone shortly before the \$100,000 Hollywood Gold Cup race last year, is back in training and nearing the competition this summer.

If she doesn't carry movie maker L. B. Mayer's colors into the big Hollywood race July 27, Thumbs Up probably will.

Thumbs Up, that broke down several months after he won the \$100,000 Santa Anita handicap in 1945, others are Second-Baseman Jack Robinson and Pitcher John Wright, both with Montreal.

Will Play Four Times Each Week

Edmonton's senior baseball league embarks on its 1946 schedule next Wednesday, May 22, with the opener of the 54-game season's program billed for Renfrew Park at 6:15 p.m.

Four games per week are provided for in the schedule which will be released this coming Saturday, regular game days for the year being Tuesdays, Thursdays, Saturdays and Sundays.

ESKIMOS, Cubs and Cardinals are the three teams which will comprise Edmonton's new ball circuit, the respective managers being Bert Culver, Ralph Morgan and Johnny Galvin.

At the conclusion of the regular schedule, the final game of which is August 24, the top teams will play a best of four out of seven series for the league championship and the winner will represent Edmonton in the annual provincial title playoff with Calgary.

CONSIDERABLE work has been done in improving the Renfrew Park baseball plant this year. The grandstand has received a new coat of paint and the seats also have been painted.

The top seven rows of seats in the bleachers have been rebuilt, thus completing the re-evaluating which was commenced in 1945.

BLEACHER PATRONS attending the opener this year will discover that the new stadium has been constructed with a view to facilitating entry to and exit from their favorite spots.

A bleacher entrance ticket booth has been installed at the north end of the park, but reserved seat tickets may be procured at the main entrance.

SEASON TICKETS are being offered baseball fans this year, complete details of which may be had from the advertisement appearing on this page.

Daily workouts will continue at Renfrew Park until the opening game and several of the newly-acquired players will be reporting before the end of the week.

Novel "Operation" Performed on Gus

LONDON, May 15.—(Reuters)—An unusual "operation" was performed on Gus Lesnevich at the end of the seventh round in his world light heavyweight title fight with Freddie Mills at Harringay last night. His left eye was so badly swollen and filled with blood that he complained of pain making his head throb.

Dick Gutteridge, who was in his head corner, cut the swollen flesh to allow the blood to flow. Lesnevich said he felt relief immediately and it seemed as if "a ton weight" had been lifted from his head.

Alexander Plans To See Classic

OTTAWA, May 15.—(CP)—The Governor General, Viscount Alexander, and Lady Alexander, are planning to attend the 87th running of the King's Plate, top Canadian turf event, at Woodbine Park in Toronto, May 25, government house officials said Tuesday.

Sports Writer Dies in New York

NEW YORK, May 15.—(AP)—Eddie Brietz, 50, sports writer and columnist, died at his home here Tuesday. His family said he had been in poor health for several years. His condition became serious two days ago.

Bowling Champs

BUFFALO, N.Y., May 15.—(AP)—The Buffalo combination of John Gworek and Henry Kwidowski Tuesday won the 1946 American Bowling Congress doubles championship.

Cards Shade Brooklyn

Marion's Single in 11th Drives Across Winning Run

NEW YORK, May 15.—(AP)—The National League's "Mr. Shortstop" was baseball's hero yesterday. Marty Marion, St. Louis Cardinals' crack infielder only punched a single into centerfield but the circumstances surrounding it made him overshadow the Dodgers 7-5 in their own Bronx.

The bases were loaded in the 11th inning and it was anybody's game until the lanky Marion, with day fading in the west and the wind cutting like a knife, solved Vic Lombardi, fourth Brooklyn fliker, for the pay-off punch before 32,918 loyal Dodgers adherents.

LEFTY MAX LAHER showed the stuff that champions are made of when he pitched his best to achieve his fifth victory against the Dodgers' first defeat in 10 games at home.

The loss reduced Dodgers' first-place lead over the Cards to a single game.

For a time it looked as though the Dodgers, leading their recent 11-game winning streak, might pull another out of the fire. Trailing 5-0 after 3½ chapters, they came back to rally in the fourth on four hits.

At the end of the seventh, thanks to some lucky hitting by Billy Herman and Dick Wakefield, the Cards jumped off to a two-run lead off Hal Gregg in the third and solid hitting kept their margin to 5-0 in the next frame, when they Brooklyn right-hander gave way to Hank Behrman after walking the bases full.

The Dodgers got three rallies in the fourth on four hits, including a triple by Dixie Walker, and picked up another in the sixth on three singles. They drew abreast in the seventh when Billy Herman blazed a double with one out.

Stan Musial opened the 11th with a single off Lombardi and was sacrificed to second. Then, in the 11th, Whitey Kurowski, with four previous hits, was passed purposely. Butter Adams, pinch-hitting for Dick Slater, whiffed for the second out, and the Flatbush fans breathed more easily. But catcher Ken O'Dea worked Lombardi for a pass to load the sacks, and the lanky Marion slammed a clean hit into center to break up the battle. Lanier set the Dodgers down in order in their last.

IN THE ONLY other National League game Boston Braves trounced Pittsburgh Pirates 5-1 before 30,762 fans.

Lefty Jim Wallace pitched a four-hit game—the second night contest in Boston's major league history.

In winning his second game of the season, Wallace faced only 31 batters while striking out six and walking one. A big fourth inning in which they scored four times sailed the game for Boston.

In the American League Boston Red Sox blanked Chicago White Sox 3-0 while Washington Senators walloped Detroit Tigers 15-1 and New York Yankees stopped St. Louis Browns 6-2.

At Chicago Dave (Boo) Ferriss with some help from Rudy York, fought and won one of the toughest mound duels of the season by beating out Chicago's Joe Haynes before a crowd of 13,392.

THE COLORED sockers got but four hits off Haynes but one of those was York's towering home run into the left field stands. Another was a double by York in the seventh. Ferriss was brilliant. He threw 78 pitches and set the Sox down for the last time.

Ontario Woman Shoots Big Bear

FORT WILLIAM, Ont., May 15.—(CP)—A bear's love for milk and the accuracy of Mrs. E. Merritt with a gun, led to the death Sunday of a 400-pound black bear in the South Gillies section, 36 miles southwest of here. The bear, which had been robbing farmers of poultry and frightening livestock, entered the grounds of the Merritt farm Sunday. Mrs. Merritt spotted it as it was leaving with its head stuck in the top of a milk can. She seized a rifle and killed the intruder with one shot.

Americans spend approximately \$5,000,000,000 annually on vacations.

Montreal Trims Syracuse, Regaining International Lead

MONTREAL, May 15.—(CP)—Montreal Royals trounced Syracuse Chiefs 4-1 yesterday to take over first place in the International Baseball League when Alex Campanis pounded out a four-sacker with the bases loaded and two out.

Cy Barker went all the way for the Royals, giving up only four hits. He was wild, walking seven batters, and three walks and a scratch single gave the Chiefs their solitary run in the second inning. But the Royals came up with three fast double plays to choke off rallies.

Manager Jewel Ems of the Chiefs, called Joe Just and pitcher Miller to the mound in the last, last few days of the game in the eighth by plump umpire Tobin for disputing a call and striking.

Rochester Red Wings defeated Newark Bears 3-2 last night in the only other league game. Eldred (Bud) Byler's five hit pitching performance before nearly 10,000 fans at the Windsor stadium.

Newark's first-inning 2-0 lead, Duane Pillette went the route for Newark, holding Rochester to seven safeties, but giving up nine walks. Eddie Joost, Rochester's game hitting attack, stopped at 15.

Asks Swift Death

Canada Day Bill

OTTAWA, May 15.—(CP)—Senator J. W. Faris (L.—British Columbia) yesterday appealed to the members of the upper chamber to kill the bill which would change the name of "Dominion Day" to "Canada Day".

"To deny Dominion Day is to deny our past," he said. "The parliament of Canada should not attempt to alter history."

Dominion Day, he said, commemorated an historic fact, the union of Upper and Lower Canada and the provinces of New Brunswick and Nova Scotia. He referred to the debates in the Senate in 1879 when the bill setting aside July 1 as Dominion Day was passed.

There was no doubt in that debate that the name should be Dominion Day.

There was some objection at that time that Canada had enough holidays already but that if July 1 was set aside as a national holiday it should be called "Dominion Day". It consecrated the birth of Canada. From then until now the succeeding generations have been taught loyalty to Canada in keeping Dominion Day.

"Are we now to revoke that consecration and re-educate our people that the consecration was wrong?" he asked.

The meaning of Dominion Day had changed through the years just as the meaning of Canada, originally a collection of huts, had changed and today "Dominion" meant the Dominion which the people of Canada held over their land.

Golf

By BYRON NELSON

TO ME one of the most interesting golfers in the professional ranks today is Ellsworth Vines, the former Davis Cup player and professional champion who has abandoned tennis for golf.

Here is a fellow who reached the top in one sport and now, at an age when the average man might be thinking of retiring, is trying to reach the top in another.

No longer ago I was paired with Vines and I asked him what prompted him to take up professional golf much later in life than the average golfer.

"I'll tell you why," said Vines. "I like competition. It probably doesn't mean much to you, but I get a kick out of such a simple thing as getting a lower score in these tournaments than men who have played the game all their lives."

"I LIKE COMPETITION so much that when I began to slow down in tennis I began to anticipate what I might do in golf. I knew I couldn't last as long in tennis as I could in golf and a began to take a greater interest in golf."

"In fact, for the last few years I was playing professional tennis I really did it only to get enough money to pay for my golf. I played three or four months each year and then devoted the rest of the year to working on my golf game. I may never become a great golfer, but by playing in these tournaments I satisfy my appetite for competition."

Vines, who has played in just about every important tennis competition in the world during his career, doesn't think that tennis is as nerve wracking as golf.

"YOU DON'T HAVE TIME to think about those shots coming up in tennis," said Vines when comparing the two games. "It's too fast. Of course, you would be nervous before the big championships, but you don't have time to think about it when you play."

"Golf is nerve wracking because you have a lot of time to stand and think about that shot you're going to have to make as soon as your opponent has finished making his."

Being an intelligent athlete, Vines is not particularly long off the tee. This is interesting in view of the fact that as a tennis player he had plenty of power and speed when he hit that ball.

However, he has a very good putting stroke. He is a wonderful putter. I also like his stance. He stands over the ball with little or no bow sway.

In fact, I think that Ellsworth Vines' record in golf is proof enough that if a man is athletically inclined and a good competitor he can be good in any form of athletics; provided, of course, that he selects some sport suitable to his physique.

"THE CLIMAX"

By Oscar Fraley Today's Sport Parade

NEW YORK, May 15.—(BUP)—Rex Barney, a long-loose-jointed kid from Omaha, walked up into the Dodge dugout with a wide "boy it's good to be back" grin on his face, straightened his bright new uniform and then went out to the practice rubber to throw a few.

The ball made a loud "boom" as it smacked into the catcher's mitt and one of the players looked up from the bench and said: "That could mean the pennant for us."

JUST LIKE THAT, Rex Barney, a 180-pound kid, dressed in a light blue pitcher's uniform, came back to the mound after three years' absence. After they saw him he looked up at the stands the 21 year old hurler was all business. Bushy black eyebrows knitted over green eyes as he concentrated on hitting his target but there wasn't a trace of nervousness.

"Nervous?" Barney said as he juggled the ball and pulled his cap down tighter over his brown hair. "They look all that out of me in Germany."

Rex doesn't think he'll ever be excited again, even if he should be picked to pitch the opening game of the world series next fall.

"I picked up three battle stars in the battle, the Rhine and in southern Germany," he said. "Nothing will ever touch my old armored outfit for excitement—not even Brooklyn."

IF THAT BE HERESY, Flatbush make the most of it. But do it lightly, because this youngster may be the final touch necessary to lack that banter up at Ebbets Field again.

He's the boy Branch Rickey picked out when the Bums were training at Bear Mountain in the Vines has the power of concentration. What's more, he plans each shot. And I've seen him play in a major league game. He's a winner. First of all he wants to be a winning pitcher for the Dodgers.

Second, he wants to get a college degree by attending school during the winter, either at Chicago U. or Creighton.

Both ambitions, he insists, will be realized in time. Meanwhile, if and when he gets married he might be as free as the breeze. He's one of those two will bother him.

The ROAD AHEAD

By HARPER PROWSE, M.L.A.

NOBODY, who is interested in the welfare of the country, can fail to be alarmed by the rising tide of juvenile delinquency. Perhaps it is true today to remark, as was remarked even in Egyptian times, that the younger generation is going to the dogs. If this be true then it is the older generation who is to blame.

Printers Accept Ruling of Board

Edmonton's job printers accepted the ruling of the War Labor Board on increased pay rates and reduced hours, when they met Tuesday night in the Labor Temple. The ruling of the board was accepted subject to the stipulation that the employers make the new agreement retroactive to Feb. 18, 1946, as had been agreed upon during the negotiations which led to the submission of the printers' demands to the board.

SECOND SECTION EDMONTON, ALBERTA—WEDNESDAY, MAY 15, 1946 PAGE NINE

Permanent Justice Court May Insure Lasting Peace

Possibility of the permanent court of international justice, now in process of formation, becoming a more potent power for the preservation of peace than the Security Council of the United Nations or the assembly itself, was suggested on Wednesday in an address delivered by Mr. Justice Frank Ford, chancellor of the University of Alberta.

He was speaking at the 36th annual convocation of the university at McLaughlin United Church as the recipient of an honorary degree of doctor of laws and on the occasion of his retirement from the chancellorship.

Stating what he termed the greatest disregard of law and of the rights of others in the history of the world, he pointed out the necessity of a system of real and effective international law.

Text of his address, in part, follows:

IT SEEMS TO ME that never before in the world's history has there been such a disregard of law and of the rights of others, not only between nations but as between groups and individuals. Perhaps never before have the minds of men of good will been more seriously directed to the necessity of a system of real and effective international law. In the field of international law there is also an increasing disregard of law. Many have come to hold the spurious doctrine that only such laws as are obeyed by the individual or group exist.

EXAMPLES OF THIS trend are to be found in the evasion, violation and defiance of laws for the proper regulation of industry. Still another example is the law which does not suit the individual.

IT SEEMS TO ME that never before in the world's history has there been such a disregard of law and of the rights of others, not only between nations but as between groups and individuals. Perhaps never before have the minds of men of good will been more seriously directed to the necessity of a system of real and effective international law. In the field of international law there is also an increasing disregard of law. Many have come to hold the spurious doctrine that only such laws as are obeyed by the individual or group exist.

THE AIM OF ALL law should be the attainment of justice which Burke has called "the great standing policy of civil society," and in the words of Justian "the constant and perpetual will to give every man his due." This is the aim of those who form or administer the law, for to commit the conscience of mankind the law must be righteous and just.

I speak especially to you of the graduating classes who in various ways will be called upon to give public service to your country and to mankind.

BESIDES COMMENDING to you serious thinking the modern doctrine of social security and its difficulties and implications, I suggest that in our search for the means to preserve our dear bought freedom we must remember that in our system of government, with its three branches—legislative, executive and judicial, the most remarkable feature is the rule of supremacy of law.

Even in time of war or internal national danger, when it is necessary for the government to have

Edmonton Dairy To Expand Plant

Expansion of the plant of the Edmonton City Dairy Ltd. in Edmonton is planned but because of the outlook for materials it will not be undertaken before next year at the earliest, J. A. Caulder, Toronto, of Silverwood Dairies, Western Division, said here Wednesday.

MR. CAULDER is paying a routine business visit to Edmonton in connection with the company's interests here. He heads western plants which are situated at Winnipeg, Regina, Saskatoon and Edmonton.

Prospects for increased ration of butter, except for temporary relief in the months of June, July and August are not good, he stated.

It will be in 1947 at the earliest before the situation eases in regard to butter, Mr. Caulder said.

REASONS FOR the continued shortage of unrefined condensed milk in Canada of fluid milk and processing for export of evaporated and powdered milk to Britain in particular. Considerable of milk product is being diverted to the military.

Hardly any butter is being exported. Mr. Caulder said he could give no details concerning the proposed expansion of the ECD premises here at this time.

3 Parishes Pass Quotas in Drive

On the fourth day of canvassing, three parishes in the diocese of Edmonton reported that they had passed their quotas in the Anglican Advance Appeal.

St. Paul's, Jasper Place, has gone well over the top and pledges and cash offerings are still coming in. Wesleyan has received \$644 in cash and \$841 in pledges and more families are yet to be visited.

EDGEMONT's contributions amount to \$240 in cash and \$285 in pledges. The Anglican Advance Appeal for redemption and thanksgiving has a national objective of \$4,300,000 to be allotted in the following way:

Pension fund, \$1,300,000; mission work, \$1,400,000; education, \$1,000,000; social work, \$55,000; church in Britain, \$200,000; churches in the Americas, \$500,000; general synod administration, \$205,000; extension of church house, \$50,000; diocesan centre, \$500,000; organization and administration, \$200,000.

The quota of the diocese of Edmonton is \$63,000. Canvassing will continue Sunday and will continue until the end of the week.

CCF Organizer Discusses Work

People are coming more and more to realize that the CCF offers the only real hope for Canada with its insecurity and lack of opportunity for young people, J. P. Griffin, CCF organizer, told a membership meeting of the Edmonton CCF in the Labor Temple Tuesday night.

MR. GRIFFIN, who has been engaged in organization work in Edmonton during the past three weeks, declared that if the CCF were not making progress "the only hope would be not spending a great deal of money to stop us."

"The most violent anti-CCF propaganda," he declared, "the more proof it offers that we are right," he said, "the more we are using good fascist technique in accusing the CCF of crimes of which the CCF accuses themselves were guilty."

The CCF was working for the health and happiness of the people and those who branded it as anti-Christian had no right to call themselves Christians, Mr. Griffin contended.

Albertans Among UBC Graduates

Four students from Northern Alberta are included in the list of graduates announced Wednesday by the University of British Columbia at Vancouver. All of them are graduates in the faculty of engineering, two of them are geologists and the others are mechanical engineers.

Graduates in geology are Leon O. Gouin, St. Paul and Ralph C. Macdonald, Edmonton. The newly graduated mechanical engineers are John Bird, Grande Prairie and Edgar F. Johannson, Edmonton.

Bus on Fire

A flurry of excitement was caused at 95 street and Jasper avenue Tuesday evening when the rear of a 95 street trolley bus operated by motorman William Frost caught fire. The blaze started in the rear brakes. No. 2 fire hall responded to the alarm under Deputy Fire Chief Shear and the flames were quickly extinguished by chemicals.

Bold Thief Gets \$13 in Robbery

A bold thief twice entered the room occupied by Mrs. W. A. Walter, 9565 103 avenue, to steal a total of \$13 in cash Tuesday evening.

MRS. NILES TOLD police that she left her room for about 15 minutes Tuesday evening and on returning found that her room had been entered and \$11 stolen. She immediately looked for an additional \$2 in the room and found it untouched, then ran downstairs to inform the landlord about the theft of the \$11.

Returning to her room a few minutes later, she discovered that her room had been entered a second time and that the \$2 was missing.

City police are investigating.

To Continue Work On North Airfield

With finishing of one runway, began last summer, construction of a new one and of bases for a range station forming the program of work in the coming months, A. M. "Matt" Berry, plans to leave Friday for Yellowknife.

MR. BERRY, who secured the contract for constructing of the all-weather surfaced runways from the department of transport last year, has received word from Ottawa that an order-in-council authorizing this year's work has been approved.

The radio range station was authorized some weeks ago. Mr. Berry said that 40 men will leave with him to work on the project.

The work will not be completed this fall although the airfield will be partially in use for wheel-equipped planes.

RCMP Arrest Man In Taxicab Case

An intensive search which was organized by both RCMP and city police early Tuesday morning to locate the gunman who held up a taxicab driver, Jerry Halisky, 10184 88 street, near St. Albert and stole his car, ended with the arrest of a man, the same day when RCMP arrested Gabriel Broufard, a half-breed living near Spruce Grove.

Police stated that Gabriel was found about three miles north of the overgrown Spruce Grove. The abandoned taxi was located about noon Tuesday beside the overgrown.

No gun was found on the young man, who held police that he had pulled a knife from his pocket and bluffed the taxi driver into thinking it was a revolver.

SEARCH FOR GABRIEL and the taxi cab was organized about 11 a.m. Tuesday when Halisky walked into RCMP detachment headquarters at St. Albert and reported that a passenger in his car had pulled a gun on him about one mile north of the car and then driven away with the taxi.

Gabriel hired the taxi to go to St. Albert about 12:30 a.m. Tuesday night, Halisky said, and when the Taxi Company, 98 street and Jasper avenue, was called.

Drop Is Reported In Disease Cases
Communicable disease cases reported to the city health office during the week ending May 11 numbered 110 compared with 144 for the previous week, according to a report filed Tuesday with the city commissioners by Dr. G. M. Little.

THE FOLLOWING is a tabulation of the case reported:

	Week	Last
Chickenpox	6	11
Erysipelas	1	1
Measles	61	7
Mumps	27	41
Rubella	4	7
Scarlet fever	5	11

Fire Chief Speaks To Y's Men's Club

The careful pay for the careless, was the remark of Fire Chief James Macgregor, who speaking to the members of the Edmonton Y's Men's Club, at the regular weekly meeting of the Y on Tuesday evening. The chief was speaking on fire prevention work and showed how careless alone cost the taxpayers a considerable sum of money each year. He also outlined how the fire department operates. A sing-song was led by Harold Campbell, chairman of the meeting. Club president, Harold Sprague.

Poles Stolen

About 100 tamarac poles, each 14 feet long, were stolen from the premises of the City Coal and Wood, 10418 81 avenue, some time Tuesday night, according to R. Pearson, proprietor, who stated that they had apparently been hauled away in a truck.

The Inquiring Reporter

THE QUESTION
What do you think of the brief submitted to the city council by the chamber of Commerce urging that \$5,000,000 be authorized for road paving during the next five years?

THE ANSWERS
PERRY FREEMAN, trucker: A step in the right direction I would say. I do a lot of trucking from town to town in the province and I figure that I could tell when I have arrived within the city of Edmonton, even if it was pitch black and I had no lights, just by the condition of the roads.

ART PRYOR, motorist: I think it is outrageous that it is possible to get stuck on a road within the city limits when the roads are wet. This is a condition that should not exist in any city.

KENNETH HALEY, veteran: Any road that is not paved in this city is a disgrace. I have seen some of the roads in the United States and they are a lot better than the roads in this city.

JOHN YENCHIK, West-Edmonton resident: I am trying to contact his brother, George Yenchik, who formerly lived at 10215 110 street, Evelyn May, Oplington, Kent, is endeavoring to locate Mrs. Konshuk, whose husband was formerly a draper in Edmonton.

Anyone having information concerning the above people are asked to contact Dr. William MacDonald, 1017 1/2 street, for further information of the city police immediately.

Parade Orders

10th Formersmen's Batt. will parade at 30 hours on Tuesday at city headquarters for continuation of training. S. B. revolver and other practice for final competition. Dress: Uniform.

URGES SAFETY. — Chief Constable Reg. Jennings, provincial co-ordinator of the continent-wide traffic safety check campaign, who officially opened the drive to reduce traffic accidents in the province Wednesday.

Ottawa Attitude Is Said Undemocratic

HALIFAX, May 15.—(CP)—C. F. Fraser, managing editor of the Halifax Chronicle and Halifax Daily Star, told a service club luncheon meeting Monday that Ottawa's approach to the problems of the Dominion-provincial conference has been un-Canadian and undemocratic, particularly in its "take it or leave it" attitude toward the provinces. He declared the conference reflected a central idea of spending money on Ottawa's part. "Unless we shake them out of this," he warned, "they are going to land us in something very close to national bankruptcy."

Edmonton Police Will Make Extensive Check of Vehicles

The greatest police traffic drive in the history of the North American continent started today as traffic squads all across Canada, the United States and Mexico opened the six week "safety check" campaign to combat the serious rise in highway accidents.

"THIS DRIVE is designed more for educational purposes and not as an attempt to secure a large number of arrests and convictions," Chief Constable Reg. Jennings, provincial co-ordinator for the campaign, stated Wednesday morning as he completed last-minute details of the drive.

"This is a very necessary drive and it should help to reduce the number of accidents and the death toll in both the city and the province as a whole, as well as in all parts of the continent," Chief Jennings said, adding that he hoped for and wanted the co-operation of all motorists throughout Alberta in making the campaign a success.

ASSISTANT co-ordinators in the campaign for Alberta are Assistant Commissioner H. Darling of the RCMP and Chief Constable S. J. Patterson of Calgary. The police forces at Medicine Hat and Lethbridge are also taking part in the check-up of motorists.

The campaign was devised by the International Association of Chiefs of Police, with headquarters at Evanston, Illinois, and is being sponsored in Canada by the Chief Constables Association of Canada. It is patterned closely after the continent-wide brake emphasis program held last year, but a more extensive check of cars will be made this year to note obvious danger conditions and will stress the responsibility of drivers and the public for the mechanical condition of motor vehicles being used.

EDMONTON POLICE are hoping that by the end of the six weeks practically all of the more than 12,000 motor vehicles being

Check Yourself, Motorists Urged

How Good a Driver Are You?

CHECK YOURSELF!

1. Signal before turning or coming to a stop?
2. Come to a full stop at a stop sign?
3. Obey traffic lights?
4. Give the pedestrian a break even though he may not have the right of way?
5. Drive in and turn from the proper traffic lane?
6. Refuse to drink before driving?
7. Know and observe the rules of the road in your community?
8. Drive with extra caution in fog, rain or snow and on wet or icy pavement?
9. Keep alert when driving?
10. Drive within the speed limit?

Ten YES answers—Are you really that good?

Eight to ten YES answers—Good driving. We need more of you!

Six to eight YES answers—Fair driving. You MUST improve.

Less than six YES answers—Poor driving. You're headed for trouble!

P.S. Take another look at your score. Would your family and friends rate you the same?

operated in the city will have been checked.

Last year the city traffic squad checked 2,000 autos during the brake campaign with 441 vehicles failing to pass the test.

"There was a noticeable decline in accidents due to faulty brakes following the 1945 campaign," stated Sgt. Albert Woodwards, head of the city traffic squad, Wednesday morning. "This year, with an even more intensive campaign and a more rigid check being made, we are hoping for even better results," he stated.

"MOTORISTS WHO have very bad brakes, or who are not in possession of a driving license will be summoned to appear in court but other faults will be noted and the motorist asked to have his vehicle put in proper running condition and reinspected," Sgt. Woodwards stated.

More than 50,000 traffic safety check leaflets will be distributed to car owners throughout Alberta during the campaign, while new-

ASKS CO-OPERATION. — Deputy Chief Constable Alex. Riddell, who Wednesday urged all Edmonton citizens to co-operate with city police in making the Safety Check campaign a complete success.

papers, radios and posters will aid in bringing home to the motorists the necessity of careful driving.

The full strength of the Edmonton force will be used during the campaign according to Chief Jennings. Following is the method of inspection being carried out here:

A POLICEMAN, having stopped a motorist, first asks to see his driver's license. Then after telling him why he was stopped, the officer hands the driver a traffic safety check leaflet stressing the importance of safe driving habits and safe car condition.

Next the officer checks the brakes on the vehicle and requests the driver to sound the horn, operate the windshield wipers and turn on the car lights. He then steps to the front of the car to see if both headlights are on and asks the driver to demonstrate whether all beams are working. While still at the front of the car, he observes the tires, noting cuts, fabric breaks and excessive wear.

THEN THE officer goes to the rear of the vehicle to observe the tail and stop lights, and condi-

unsafe steering, no rear vision mirror, defective mufflers, etc. POLICE ARE asking the motorists to retain the check list issued to them when they are checked in order that they can produce it stopped at a later date during the campaign.

NOTICE

To Drivers of Motor Vehicles

To the operators of all cars and trucks, notice is hereby given that during the coming six weeks, members of the City Police Department in conjunction with the International Chiefs of Police Association and the Chief Constables Association of Canada, will test the brakes on motor vehicles operating on the streets of Edmonton, and that prompt and drastic action will be taken against the driver of any car or truck being operated in an unsafe condition.

Any motor vehicle now being operated with faulty brakes should be immediately put in safe driving condition.

Pioneer Missionary Built Well

Civic Service Pays Tribute

McDougall Church Founder

Tribute to the memory of the Rev. George McDougall, Protestant missionary and founder of McDougall Methodist church in Edmonton, was paid on Tuesday evening at a civic service held in McDougall United church. The service was held in commemoration of the restoration of the original McDougall church, built in 1871 and recently restored as a shrine and museum for the people of Edmonton.

Clergymen of several religious denominations took part in the service. Addresses were given by the Rev. C. H. Huettis, one-time minister of McDougall church, and the Rev. W. F. Barfoot, Bishop of Edmonton.

"The city owes much to George McDougall," Dr. Huettis said, "and it is fitting that the things that he did for the city should be remembered."

Likening George McDougall and the missionaries of yesterday to the missionaries of today, Dr. Huettis said, "We are straight to the target."

Bishop Barfoot said "our ancestors' heads should be our greatest glory."

"THERE ARE NO DEAD," he said. "We are confronted by living people." He spoke of the living and said that just as peace, freedom and justice now live, so is George McDougall, and what he stood for, as vital and alive today as ever.

He spoke of the mighty change that has come over the world since McDougall's time—a change in spirit, in outlook, "The world is not half as safe a place to live in as it was then," he said. "People are afraid to accept the view that life is cheap and not precious as it used to be."

"The capital our forefathers bequeathed us can be our foundation for the future. Our future depends on holding firm to the fundamental truths of Christianity."

A DELEGATION from the Alberta Mission Association, headed by A. J. Smith, a representative of the association, presented a resolution at the Tuesday night meeting of the Edmonton Board of Education.

The board investigated several locations which were suggested for the new mosque, but none was ever being declined due to what was stated to be either inconvenient location or proximity to playgrounds which would result in disturbances during worship services.

Representations have been made by the Moslems for acquisition of property on Norwood Boulevard as the most suitable site for removal of the mosque, but this had been turned down by the city since it is intended to make use of that location for the laying out of a park.

Superintendent R. S. Sheppard, in an effort to break the stalemate, suggested that the board approach the city, backed by a resolution seeking reconsideration of the decision not to make the property available, with the alternatives of locations on Kingsway or the Technical School grounds.

MR. KAZALI OBSERVED that either of the latter two named were unsuitable due to the athletic activity carried on in the playgrounds, and expressed the opinion that the city was taking something of an adamant attitude in refusing the Norwood property, considering this was the only Mohammedan Mosque in Canada and that contributions came in from all parts of the Dominion.

Trustee James MacDonald stated that the city had three requests for the property from churches of other denominations and probably now felt that it could not discriminate.

The matter was left in abeyance when Chairman F. Armour Ford, and A. E. Ottewill agreed that they would not wait on the construction of the school buildings.

Meanwhile, both the board and the Moslem Association agreed to continue the search for a more suitable location for removal of the Mosque from its present location.

APPLICATION BY Canadian Vocational Training for use of a house in constructing residential courses for students planning on entering the university this fall was

EARLY CHURCH RE-OPENED: Participants in the civic service held in McDougall United Church Tuesday evening in commemoration of the re-opening of the historic McDougall Methodist Church. The original church was built in 1871 and will now be used as a memorial and museum for the benefit of Edmonton citizens of all denominations.

many of the ancient landmarks of Edmonton have been destroyed. He congratulated the church on preserving one of these landmarks as a museum and shrine for the people of Edmonton of all denominations.

His Honor Lt.-Gov. J. C. Bowen, unable to attend, sent his best wishes for the future of the historic church.

Selections were played on the original McDougall organ by Miss Helen Harbour and W. J. Hendra, one of the hymns sung during the opening service of the original church. Additional music was supplied by the Salvation Army Band under the direction of Major Halley.

Official rededication of the historic church will be held Saturday afternoon, May 25, at the annual United Church Conference in Edmonton.

The rededicated church stands immediately north of McDougall United Church.

Board Authorizes

Debentures Sale

The Edmonton Separate School Board at a meeting on May 13, made arrangements for the sale of the \$180,000 issue of debentures authorized by the board's bylaw No. 22.

The figure submitted by this syndicate was \$101,967 for 3 per cent and 3 1/2 per cent debentures. The effective interest rate under this sale is 2.65 per cent, the lowest rate obtained to date by the school district.

The building committee reported reasonably satisfactory progress being made in the various building projects now in course of construction.

at 92 street, St. Andrew's and St. Anthony's, as well as in the preparation of revised plans and specifications for Saint Patrick's (Fairview).

DURING THE NEXT few weeks the building committee will give further consideration to other accommodation problems which will arise in anticipation of the opening of schools in September, as well as to various repairs and alterations, particularly the improvement of lighting facilities in several schools.

To Show Glider
The National Research Council's latest glider will be put into operation for a demonstration at the Namau airport on Thursday evening.

The public are invited to attend and view the demonstration. Take off is at 6:30 p.m.

Queen Elizabeth wore the first pair of silk stockings ever knit.

Butter and Cheese

Production Drops

Downward trend in butter and cheese production in Alberta and all across the country continues, according to an announcement made Wednesday by the Alberta department of agriculture, although the report suggests that in the northern section of the province production for May should average up to be on a level with May, 1945.

ALBERTA'S PRODUCTION for April was 85 percent below that of a year ago and for the month of January to April it was 12.5 percent below the previous year's total.

It is in the total of butter stocks on hand that the most startling drop is shown. It is estimated that stocks of butter in nine principal Canadian cities are 72.3 percent below a year ago, or more than 4,000,000 pounds less.

Charge Motorist After Accident

A pedestrian is in hospital suffering from a fractured leg and a motorist is charged with dangerous driving as the result of two traffic accidents in the city Tuesday evening and early Wednesday morning.

ALEX MOYUO, 12428 66 street was injured when he was struck and knocked down by an auto driven by Eric A. Spurrell, 10428 112 street, at the intersection of Jasper avenue and 58 street about 1:30 a.m. Wednesday. The motorist stated that he was driving west on Jasper avenue and was momentarily blinded by the lights of a taxi cab backing into the lane beside the Williamson block. He first saw Mr. Moyu directly in front of his vehicle and was unable to avoid hitting him.

Harry Coffin, 10438 144 street, who witnessed the accident, said that Moyu appeared to be half walking and half running across the street when he was hit.

THE INJURED man was rushed to the University hospital by Jack Hays ambulance where he was found to have suffered a fractured left leg, facial lacerations and shock. Hospital authorities reported Wednesday morning that he was "resting well and appeared to have rallied strongly."

Dr. Frank Smith of Canmore was arrested and charged with dangerous driving following an accident at the intersection of 81 avenue and 104 street shortly after 10 p.m. Tuesday, when he collided with the McKernan Lake street railway system tram.

HERBERT CASSIDY, tram motorist, said that he was travelling south on 104 street when he observed a car approaching in the opposite direction and being driven on the wrong side of the road. At the 81 street intersection the auto swerved across in front of the street car and the left front of the

Scientific Workers Elect Officers

The Edmonton branch of the Canadian Association of Scientific Workers elected its officers for the next year, on Monday, as follows: chairman, Dr. G. O. Langstroth; vice-chairman, Mrs. E. Richardson; secretary-treasurer, Miss Margaret Ball; executive secretary, Dr. J. J. Morrison.

Chairmen of committees are as follows: publicity, L. E. Weller; information, H. Louis; science education, Dr. M. M. Cantor; science planning, J. Kestel; films, Dr. J. A. Homey; students, A. E. Harper. The delegate to the national convention to be held in Toronto, May 24 to 26 is Dr. D. B. Sewi.

Dr. Smith is scheduled to appear in court Wednesday.

Dr. Smith was fined \$75 and costs when he pleaded guilty to the charge in city court Wednesday.

"Our Family Regulator is DR. CHASE'S KIDNEY PILLS"

HEADS TRAFFIC SQUAD—Sgt.

Albert Woodwards, head of the city traffic squad, was in charge Wednesday evening of the first night details of the traffic drive as his department started a six-week check-up on Edmonton motorists.

Moslem Mosque Site Needed For School

Question of removal to another location of the Mohammedan mosque, 10120 101st avenue, in accordance with construction of the new school buildings in the plans for the Victoria community high school, remained undecided at Tuesday night's meeting of the Edmonton Board of Education.

A DELEGATION from the Alberta Mission Association, headed by A. J. Smith, a representative of the association, presented a resolution at the Tuesday night meeting of the Edmonton Board of Education.

The board investigated several locations which were suggested for the new mosque, but none was ever being declined due to what was stated to be either inconvenient location or proximity to playgrounds which would result in disturbances during worship services.

Representations have been made by the Moslems for acquisition of property on Norwood Boulevard as the most suitable site for removal of the mosque, but this had been turned down by the city since it is intended to make use of that location for the laying out of a park.

Superintendent R. S. Sheppard, in an effort to break the stalemate, suggested that the board approach the city, backed by a resolution seeking reconsideration of the decision not to make the property available, with the alternatives of locations on Kingsway or the Technical School grounds.

MR. KAZALI OBSERVED that either of the latter two named were unsuitable due to the athletic activity carried on in the playgrounds, and expressed the opinion that the city was taking something of an adamant attitude in refusing the Norwood property, considering this was the only Mohammedan Mosque in Canada and that contributions came in from all parts of the Dominion.

Trustee James MacDonald stated that the city had three requests for the property from churches of other denominations and probably now felt that it could not discriminate.

The matter was left in abeyance when Chairman F. Armour Ford, and A. E. Ottewill agreed that they would not wait on the construction of the school buildings.

Meanwhile, both the board and the Moslem Association agreed to continue the search for a more suitable location for removal of the Mosque from its present location.

APPLICATION BY Canadian Vocational Training for use of a house in constructing residential courses for students planning on entering the university this fall was

DOROTHY DIX SAYS—

Men Have Best of Life When They Are Young

No Matter How Successful a Life a Man Has Had, in Old Age He Is More Bereft Than a Woman

Because He Has Less to Fall Back on

Men have the best of life when they are young, but age is kinder to old women than it is to men. In youth men are freer than women ever are. More doors of opportunity are open to them. They have a better chance to follow their bent and achieve their ambitions than women have. Their daily routine is never as dull as women's is because it has in it more people, more experiences, more adventure.

BUT WHEN AGE comes the story is different. No matter how pleasant a life a man has had, no matter how successful he has been when the time comes when he has to give up his old pursuits and habits, he is more bereft than a woman is because he has less to fall back upon. His work has been taken from him and the hands that have always been busy are idle. His one absorbing interest is gone, and he has to live in the past, or else perish of boredom. He often hasn't even kept his friendships in good repair, and there is no other man with whom to share his loneliness. As Chaucer once said, "There are many men in the world who are old and lonely."

Minute Make-Ups

To make your home treatment really effective, take the following steps, one minute for each. First, cleanse throat and face with liquefying cleansing cream. Second, remove with tissues. Third, use a skin freshener. Use a cotton pad dampened with cold water. Fourth, apply foundation cream or lotion. Smooth on with fingertips. Fifth, rouge, powder and lipstick. Step by step—very simple, but very effective.

In 1858, the cable rate between Great Britain and North America was \$5 a word.

By JOSEPHINE LOWMAN—

Why Grow Old?

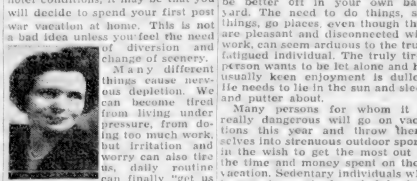

country who have enough to retire on, but there are very few who have anything to retire to.

Nearly all old men are miserable. That makes them grumpy and an affliction to live with, for they take out their chagrin on what are their nearest and dearest, by being bitterly critical of youth. In many a household Grandma is a nuisance and the most loathed figure in it, but there are few households in which Grandpa isn't the family pest. And it is because men can't take their age in their stride as well as women do.

It is that ability that women have to accept age cheerfully and philosophically that is responsible for their having a longer life expectancy than men. For, without knowing it, they prepare themselves for it by having a great diversity of interests that keeps them always busy and occupied.

WHEN GRANDPA has to give up his job and go on the retired list, he has nothing to do except to interfere with other people and tell them how much better he used to do things than they are doing them. But Grandma is as busy as a bee. She looks after her children, she takes care of the babies and she has her own life.

Many different things cause nervous depletion. We can become tired from living under pressure, from doing too much work, from irritation and worry can also tire us. Many different things can finally "get us down" and we become exhausted. I remember one of the best vacations I ever had. We spent it in a little town in the mountains. My husband had a lot of light touch of blood poisoning but we were ripe for adventure and change. When friends asked me if I had a nice time I replied, in all sincerity, "Oh we had a wonderful time." I did not realize how crazy it sounded until they laughed at me. It was the troubles we had. The climate, the colorful surroundings, the complete change in people and outlook and language, was delightful and the remainder seemed secondary.

IF YOU FEEL LIKE we did, you had better get going on your vacation trip. However, if you are physically tired and need rest, a short travelling vacation certainly will be better off in your own back yard. The need to do things, see things, go places, even though they are pleasant and disconnected with work, can seem arduous to the truly fatigued individual. The tired person wants to be left alone and his usually keen enjoyment is dulled. He needs to lie in the sun and sleep and putter about.

Many persons for whom it is really dangerous will go on vacations this year and throw themselves into strenuous outdoor sports in the wish to get the most out of the time and money spent on their vacation. Sedentary individuals who have not exercised or indulged in sports for years often, on vacation, become fervent athletes in activity.

IF YOU WISH to have my leaflet about vacations send a stamped, self-addressed envelope with your request for my leaflet No. 2, "Happy Landings." Address Josephine Lowman in care of this newspaper. Released by The Register and Tribune Syndicate, 1946.

Road Ahead

(Continued from Page Nine)

der these conditions everybody is in everyone's else's way, and the children are under everybody's feet all the time.

Father comes home after the day's work is done. Mother has been driven to distraction all day long. By the time supper is over both of their tempers are probably frayed and they want to sit down and relax. They haven't got time for Mary's or Johnny's questions, chatter, or noisy confidences. Mary and Johnny are told to "get out and play."

IT DOESN'T TAKE long under these conditions for Johnny and Mary to get the idea that they aren't exactly wanted around "home." If they don't come in early then so much the better, because they aren't getting in the way when they aren't wanted. When Johnny and Mary get on towards bedtime, the situation gets even more complicated. And when they have passed sixteen it is worse still.

In the old days, when even the poorest of people were able to have a home, it was a different proposition. There was room in the home for everybody—and they were so. They came to stay around. There weren't any radio programs to listen to nor other forms of entertainment, and people had to make their own fun.

WHEN JOHNNY GOES out of the house where is there to go? He probably meets some of the other fellows. Today it seems that you have to have money to have fun. Picture shows cost money. Cups of coffee and hamburgers cost money. The juke box begs for nickels. If Johnny is to keep up with the others he needs money too. If Johnny is a little older perhaps he has been able to earn a bit of money during the past couple of years. Today it isn't so easy to find the answer to all this is to provide Johnny with something interesting and worthwhile to do.

Get him a hobby. It's a grand idea. But if he collects stamps he needs a place to work. If he needs a table for his handicrafts he needs a corner for a workshop. And there just isn't room for Johnny to do anything in the crowded quarters the family lives in.

So we're getting a bill for juvenile delinquency. In your town, I believe it. We're getting a bill for not doing anything to solve our housing problem.

Gas Stove Takes Two More Lives

NEOSHO, Mo., May 15.—(AP)—Lloyd Bruce Etniss and his English bride, who came from the United States to join him only four weeks ago, were found dead from asphyxiation in their home yesterday. Sheriff H. C. Cline said they apparently were victims of the same open flame gas stove which asphyxiated a soldier, his wife and their baby in the same house last October.

Your Baby And Mine

By MYRTLE MEYER ELDERED

If you are buying garments for that very new baby at this time of year, go easy on the purchases. During the summer the well-dressed infant wears just two stylish garments, both of them diapers.

AFTER THE SIXTH week, certainly by the second month, the sun will be shining high and hot in the heavens and the baby won't need those fairylike dresses, or those dainty petticoats or marks of the shoes or hose or booties. He'll want only to be kept cool and free of prickly heat in those essential, practical diapers.

ALL MOTHERS of first babies over-hygiene. Maybe no one cared in those days when clothes were plentiful and cheap. Now it is sheer waste, extravagance and selfishness to buy more than the baby needs and can wear. Some other mother might have use for those extras.

INSTEAD OF FOUR or more of everything, it may be possible by laundering the clothes twice a week (and what mother doesn't?) to get along with two or three at the most. If there is a convenient diaper service, then only a few token diapers need be bought; if the service only washes but does not provide the diapers, then four dozen is about the least number that should be bought.

Four kimonos will be enough and three night-gowns and three thin-weight, cotton shirts for wear in the beginning and end of the summer and on unusually cool days.

BUY GARMENTS which won't be outgrown in the first few months. Babies double their weight at five months in these days of generous feeding and by that time the infants I-A, Ont. Print plainly name, address, pattern number. Please allow a week or ten days for delivery.

Samuel Johnson published the first English dictionary in 1755.

PUT YOUR MONEY in permanent furniture for the nursery: a good crib and mattress; a nice highboy, a low chair for mother to use when nursing or bottle-feeding the baby, a play-pen, a toilet chair, a low feeding table. The clothing is of the least consideration for a summer baby. You might as well take advantage of that fact. Our leaflet No. 2, "Layette and Confinement Necessities," may be had by sending a stamped, self-addressed envelope with this request to Myrtle Meyer Eldred in care of this newspaper.

Man Loses Hand in Detonator Blast

YARMOUTH, N.S., May 15.—(CP)—Don Harris of nearby Short Beach was in hospital here last night recovering from injuries he suffered when a long-mine detonator washed up on the beach exploded. He lost his right hand, a finger of the left hand and suffered body lacerations.

Such Good Taste!

By ALICE BROOKS

Here's cross-stitch that's very unusual! Simple to do, it has the decorative effect of gingham applique. Fun in any color!

"Just right" embroidery for your kitchen, breakfast nook linen. Pattern 7325 has a transfer of 6 motifs about 3 1/2 x 6 in. stitches.

Bridge

By WILLIAM E. MCKENNEY

America's Card Authority

The South Eastern Sectional

Tournament at the Hollywood

Beach Hotel, Hollywood, Fla., was

a big success. However, Ned Tobin

and I did not succeed in holding

the pair championship title that we

won last year. It went to Comdr.

S. W. Kirtland of Miami and Mrs.

Monte Meyer of New Orleans, La.

The defensive play on today's

hand was missed at most of the

tables, but not by Commander Kirt-

land. Those who missed it might

be charged with guesswork, be-

cause the dealer of spades opening

should mark West with a four-card

suit. Certainly if South held four

spades, he would have supported

his partner's spade bid.

When the eight-spot was played

from dummy, East should not go

in with the jack but should play

the four-ace. By the rule of 11

South was marked for one spade

West would not underlead the ace

of spades with North having bid

that suit; therefore South's only

spade must be the ace.

Where East played the jack, de-

clarer simply went over to dummy

with the ace of hearts and led the

queen of spades through, taking a

discard whether East covered or

not. Now the ace suit could be

established for two more discards.

Miss Edith Royds Is Bride Of Matthew Lamont Colville

Spring flowers and fern banded the altar in St. Faith's Anglican Church Tuesday at 8 p.m. for the marriage of Miss Edith Royds, daughter of Mrs. E. Royds of Edmonton, and Matthew Lamont Colville, son of Mr. and Mrs. N. Colville also of this city. The Rev. L. M. Watts performed the ceremony. Given in marriage by her brother, Thomas Royds, the bride wore a full-length gown of white Swiss embroidered tulle, made with inserts of satin in the bodice and full skirt that featured a penum which tied in the front in a satin bow. Her floor length veil was held in place by a double strand of orange blossoms and carried a cascade of bouquet of red roses and lilies of the valley. Her only piece of jewelry was a pearl necklace, gift of the bridegroom.

BRIDESMAID, was Miss Peggy Colville, sister of the bridegroom. She wore a period gown of white tulle with a fitted waist and full skirt. Her chapel veil and nosegay were to match and her flowers were a bouquet of pink gerberas.

Best man, Mr. N. Colville, was John Colville and Lawrence Colville, Miss Betty Kinzett sang.

LADY BADEN-POWELL Chief Guide City Visitor

"The Girl Guide movement which continued to carry on in all parts of the world during the war can do much for the preservation of peace, because it is a 'proven tool'." stated Lady Olave Baden-Powell, Chief Guide of the World, in an interview with The Edmonton Bulletin, Wednesday morning. Lady Baden-Powell arrived in Edmonton Tuesday evening in the course of a tour of the Dominion.

THERE IS MUCH to say about a girl which has developed in 30 years to a world-wide movement and which embraces every race, creed and color. In addition, it is a voluntary organization, she said.

"If I can continue to operate under the impression that the girls are trained by the war, and through the courage of its trained leaders, hinder the enemy, surely it can do much for maintaining peace," Lady Baden-Powell said.

LADY BADEN POWELL has given confidence in the movement which she has seen grow from a small group of English girls who arrived at the first large Scout camp in England in 1909, to the 2,000,000 girls in Brownies, Guides and Rangers who are active in its ranks.

She has great admiration for the contribution the Girl Guides and Girl Scouts have made in several countries that have made in the war effort. Individually, and as groups, they have done much for the war effort, and have helped in blood transfusion clinics, hospital canteens and evacuation centers.

In France, Belgium and Holland, Guides took part in numerous underground activities. They were trained, responsible and courageous and took their part beside the soldiers, resisting the German occupation.

"PEOPLE IN AUTHORITY in the forces, civil affairs and other important work, speak well of the training. A senior officer in the Auxiliary Territorial Services took a survey of the women under her command and 75 per cent of the officers were former Guides," she said.

Lady Baden-Powell said guiding had started again in Italy, after a lapse of 17 years during the Fascist regime, and the movement has recommenced in Greece, the Philippines, Malaya, Norway, Sweden, Denmark and several other European countries.

IT WAS HER opinion that guiding could not be considered in Russia or Germany at present. The Red Pioneer movement was at present operating in the Soviet and German in Germany was a question, since ideas of friendship and good will could not be applied to a conquered people.

"The main drawback of the Girl Guide movement is the lack of funds," she said. Young women with character, energy, intelligence, spirit and a sense of service are needed to direct the girls in their valuable training.

IN THE PAST year she has visited Western Europe, the West Indies, Mexico, part of South America and the United States, and is now completing a tour of Canada.

Dean A. M. Trendell Guest Speaker

The Very Rev. A. M. Trendell, Dean of Edmonton, was guest speaker at a recent meeting of the Young Adult club of the Central United Church. His subject was "The Delusion of the Holy Grail," which was held Monday evening. Assisting, Miss Macdonald, Colin Gordon led the singing. Among those present were Mr. and Mrs. D. Langille, Miss MacDonald, Colin Gordon led the singing. Among those present were Mr. and Mrs. D. Langille, Miss MacDonald, Colin Gordon led the singing.

Who's Who in Edmon-Teens Peel-Jones Wedding Held At Metropolitan Church

Spring flowers, ferns and palms formed the setting in Metropolitan United Church, Tuesday at 3:30 p.m. for the wedding of Miss Gwyneth Violet Jones, only daughter of Mr. and Mrs. R. E. Jones of Red Deer, and Chester O. Peel, son of Mr. and Mrs. Lawrence Peel of Edmonton. The Rev. H. McRae officiated, assisted by the Rev. E. G. Burnham. Miss Fay Miller, cousin of the bride, was soloist and Mrs. J. V. Dault was the organist.

ENTERING THE CHURCH on the arm of her father, the bride wore her graduation gown of white silk jersey, fashioned with a sweet heart neckline and long sleeves. Her hair was styled in blue and white coronet. Embroidery trimmed the bodice. Her floor-length veil of white net was ornamented with tulle and held to her head with a Mary Queen of Scots head-dress. Her only jewelry was a pearl necklace, gift of her mother at her wedding. She carried a shower bouquet of dark red roses.

Miss Margaret Hansen and Miss Irene Foss were bridesmaids. Both wore a two-piece gown in blue and pink respectively with caplets to the neck, trimmed with sequins. They carried bouquets of white and pink flowers. The bride's maid, Miss Marilyn Miller, cousin of the bride, was flower girl. She wore a gown of pink net with a half-inch of tulle and carried a basket of spring flowers.

K. C. Miller was best man and ushering the guests to their seats were Jack Longworth and Robert Stollery.

AFTER THE CEREMONY a reception was held at the Cottage Tea Rooms for 100 guests. The bride, receiving with the bride party, wore a wool crepe dress with a half-inch of tulle and carried a basket of spring flowers.

The bride's table, laid in linen, was centered with a three-tiered cake and decorated with white and pink flowers. The bride and groom were seated at the head of the table. The bride's table, laid in linen, was centered with a three-tiered cake and decorated with white and pink flowers.

350 Persons Attend Dinner

Three hundred and fifty people attended the University of Alberta Alumni dinner held Tuesday evening in Athabasca Hall in honor of graduates and their parents.

The head table was centered with silver rose and full of spring flowers flanked by yellow tapers in silver candleholders. Seated at the head table were the honored guests: Mr. Robert Newton, president of the university, Dr. W. G. Hardy, honorary president of the graduating class, Hon. E. R. Ansley, minister of education, Mr. E. Manning, president of the University of Alberta, Mr. J. A. Dyer, representing the Class of 1916, Dr. G. F. McNally, president of the University of Alberta, Mr. J. A. Dyer, representing the Class of 1916, Dr. G. F. McNally, president of the University of Alberta.

Mr. and Mrs. J. B. Miller returned to Edmonton Monday night after spending the week-end in Calgary with the former's father, Leo H. Miller, K.C. David M. Miller also returned to Edmonton during the week-end after spending 10 days in Calgary with his father.

Miss Adele Elizabeth McQuay, 18, daughter of Mrs. E. C. McQuay, 10973 126 street, who is a member of the West End Edmon-Teens Club, Adele likes knitting, playing the piano, badminton, swimming and writing for the school paper. She is a member of senior Hi-Y and attends St. Peter's Anglican church.

Elizabeth Woodward Says . . .

SHOULD YOU BE TRUE?

Your love boat is sailing away. He's been tapped for uniform . . . and in a matter of days now he'll be gone. You're both making the most of these last days together . . . staying up late . . . making every minute count. Each of these last seconds together is intensely beautiful that any of the in-moments you've spent together. Everything he says is more important, every look is more meaningful. You're both trying to drain every precious ounce from each other before the parting. Time's fleeing so fast!

In the middle of a burst of sentiment, he wishes out loud that this could go on forever. "So pretty . . . so perfect. And, of course, you're trying hard enough to be his. He's bound at the thought that he won't see you for a while. It also pounds under the thought that maybe some other boys will. So he asks you to wait for him."

HE'S TOO YOUNG to think about getting married. You're just the girl he likes best. And in the glow of parting from you, he likes you immensely. He's in no position to give you an engagement ring or to ask you to wait for him. He's just a boy that's what you promise to wait for him. What are you supposed to be doing while you're waiting for him?

Oh, go out with the girls and have fun! Stay home with your family and have fun! Go places by yourself and have fun! Don't go anywhere . . . but be sure to have fun! If you promise to wait for any boy that's what you promise to wait for. No dates with anybody else. No dancing . . . you need a boy to dance with. No double dates even with Mary Anne's cousin. He may be completely safe . . . but he's a boy.

"Just hold everything until I get back" is what he says. "I'm the one who's going places. I'll be meeting new people, maybe dancing with some strange girls but that's part of the new life. I'll be leading. I want you to stay just as you are . . . till I get back. And when I get back I want to find you loving me just the way you're loving me now. I don't know how I'll be feeling by that time, but I don't worry about that. I'll write to you when I have time. And when you get back, we'll see how things are. That's the way it is. It's a mighty big chance you're taking. If you promise on your honor to wait for me, pay no attention to anyone else whatsoever. To wrap yourself in cotton batting and store yourself away until the moment when he comes back. Will it be cold storage for you?"

Mr. and Mrs. J. B. Miller returned to Edmonton Monday night after spending the week-end in Calgary with the former's father, Leo H. Miller, K.C. David M. Miller also returned to Edmonton during the week-end after spending 10 days in Calgary with his father.

Johnson-Walton Wedding Held

EDSON, May 15.—Mrs. Betty Walton, daughter of Mrs. E. K. Johnson of Edmonton, was married Saturday afternoon to Bert Johnson, son of Mr. and Mrs. A. Johnson of Sweden of Sweden. The Rev. H. Winfield officiated. The ceremony took place in the home of Mr. Johnson.

The bride wore a dressmaker's suit of gold with white accessories and a corsage of spring flowers. Miss Jean Gondall, sister of the bride, and Mrs. J. V. Dault, bride's maid, were bridesmaids. The wedding party and a few friends had dinner at the Edson hotel and held an open house reception at the home of Bert Johnson. More than

HICKORY Perma-Lift BRASSIERES
 THE LIFT THAT NEVER LETS YOU DOWN

Your style line starts at your bust line. That's why the "Perma-Lift" bras are designed to combine smooth uplift lines with unrestricted comfort, to mold your figure into firm, rounded, youthful contours. The patented cushion insets at the base of each bra-cup gently support your bust from below. For beauty and style... for cool comfort... wear a "Perma-Lift" brassiere.

A—Cotton broadcloth bra in B cup for average, C for full bust. Elastic front inset. Sizes 32 to 38. \$1.95

B—Rayon satin bra in B cup for average, C for full bust. Elastic front inset. Sizes 32 to 38. \$2.00

D—Rayon satin bra with rayon lace front inset. B cup for average bust, C for full bust. Sizes 32 to 38. \$2.50

E—Rayon satin and net bra in A cup for small bust, B for average bust. Sizes 32 to 38. \$2.50
